

# Relief Administration Dominates Dominion-Provincial Conference

## Forced Idleness, Social Insurance, To Be Considered

### Sweeping Survey of Jobs in Each Canadian Zone is Made

OTTAWA, Jan. 18.—Relief administration dominated discussion at the dominion-provincial conference Tuesday. Towards the close of the afternoon sitting, Prime Minister R. B. Bennett introduced the subject of unemployment and social insurance as a prelude to its consideration this morning.

Discussion of relief brought forth a sweeping survey of the situation in each province. On many phases of the problem, suggestions were advanced.

3.—Closer checking of eligibility for relief.

4.—Encouragement of farm settlement.

5.—Uniformity of the standard of relief in all the provinces.

6.—Development of existing schemes to provide work in camps for the single unemployed.

7.—Public works where conditions necessitate.

These matters will go under advisement. Out of the general discussion, it was agreed by all the delegates that administration of relief since the conference in April last had been carried out with reasonable efficiency.

### RELATIVE JURISDICTION

Relative jurisdiction between dominion and the provinces surrounded the subject of unemployment and social insurance. Sketched lightly by Premier Bennett last night, the matter will occupy the whole of today's morning sitting.

The dominion view is pretty well known. The plan—and a contributory one only—must be to co-operate with the provinces rather than to take over their relief work. The dominion view is to carry out a national scheme and accept the percentages of work from employers and workers.

Manitoba, Saskatchewan, Alberta, Prince Edward Island and Ontario are to be prepared to give authority to the dominion.

### TWO ARE ADVISERS

Of the revolving three provinces, Ontario and Quebec are said to be advisers. Some degree of support may be given by British Columbia to the central provinces.

With Prime Minister R. B. Bennett presiding, the party opened at 10 o'clock Tuesday morning in the railway committee room of the parliament building. All nine of the provinces were represented. Morning and afternoon sittings were marked by a desire to co-operate toward a common understanding.

At the afternoon sitting, the dominion tendered by the Governor-General to Bishop Hild, Lord A. Innes, given by Mr. Bennett yesterday. These provinces are said to be advisers. A slight sitting today is in the offing.

### Noted Automobile Maker Sued for \$1,000,000 Credit

NEW YORK, Jan. 18.—Suit for \$1,000,000 was filed in Supreme Court Tuesday against John N. Willys, automobile manufacturer and former ambassador to Poland, by counsel for Mrs. Violet A. Willys of San Francisco, who is administrator of the estate of Mrs. Carolyn Willys.

Charles B. Merritt, secretary to Willys, was named co-defendant. The complaint alleged that Willys and Merritt had power of attorney from Mrs. Carolyn Willys to borrow money and to execute the account in April 1929 had a credit balance of \$1,000,000 in cash and securities, and allowed that the balance be withdrawn the balance and converted to their own use.

At the office of counsel for Willys it was said that a general denial to the charges will be filed.

### ORDER PULP CUTS

NORTH BAY, Jan. 18.—An order for 45 pulp cutters has been filled with men recruited from the pulp camp at the sand dam and unemployed in the city, and despatched to South Porcupine. The men will work on a piece-work basis.

### DOG HELD UP

SAULT STE. MARIE, Ont., Jan. 18.—The promise of much snow in the Algoma this winter, and the absence of money to pay transportation costs, has resulted in the general use of the dog sled.

### Tonnie Tucker Invites Every Woman Reader To Join Sewing Circle

Anyone Can Enter—Weekly Lessons Will Increase Your Skill—Form Your Own Sewing Circle Now

To make dresses, hats, gowns, lay underwear, which every friend will admire—what a goal to set for yourself this winter!

Almost everyone can sew—but the art of finishing off the skirt or a dress or frock to give that tailored effect which is so much in vogue—made dresses after they have passed through the hands of experts—that's the real fun of it.

Each week Miss Tucker will explain intricacies of the stitches—how they are done by experts and how you, too, can do it. Expect to see every branch of sewing. The course will extend for six months, and in the end you will find yourself well equipped for every type of plain and fancy stitching and embroidery. There will be plenty of fun for you at the end of the course. You will have something of use to you for the rest of your life. Let your friends know. It's so much more fun working together.

See the first lesson on page 5. You can organize your own circle or you can work by yourself—only part in every branch of sewing. Why not organize your own circle today?

## U. F. A. CO-OP. DIVIDENDS \$11,192.31

### Four Commodities Handled Net Revenue to Organization

CALGARY, Jan. 18.—Payment of \$11,192.31 in patronage dividends was reported by the co-operative committee of the United Farmers of Alberta issued here Tuesday and adopted by the annual convention of the organization now in progress.

Handling four chief commodities, the committee reported total revenue of \$28,454.96 for the period from June, 1931, to December 31, 1932, against expenses of \$15,662.52, leaving a surplus of \$12,792.44. After paying the patronage dividend, the committee allocated \$7,349.31 for organization, staffs, services and facilities, leaving the undivided surplus still to be administered.

The four commodities handled were fuel and lubricating oils, binder, tins, apples and coal.

Norman V. Priestley, vice-president and chairman of the committee, explained difficulties were encountered through the 45 hours per constituency purchasing associations having different fiscal years. As a result, a true reflection of the amount of business done could not be determined. He said one association, comprised of 26 locals, had done \$300,000 in business in 12 months.

Dr. A. K. Robinson of Berlin has invented a "revolving-wing" airplane. Recalling the old "adept" which was a flying machine, he expected it will fly straight up and down, and it will not be destroyed, or without a motor.

With no motor, it will descend with a parachute. It will stand still in mid-air for an indefinite period of time, and it will not be destroyed, or without a motor.

### STONER DOCTOR DIES

PROVINCIAL, Ont., Jan. 18.—Stratford's oldest physician, Dr. Donald B. Fraser, who started his practice here in 1878, died yesterday. Dr. Fraser went well recognized in the medical world by his discovery of an antidote for carbolic poisoning.

### LEGALIZE FARM STRIKES

BISMARCK, Md., Jan. 18.—Farm strikes would be legalized and the governor empowered to use the state militia to break them up, should riots ensue, in a measure introduced in the state senate by Senator W. E. Martin.

of atoms, is infinitely more complicated than all of earth's machinery and together.

### ROCCO CASTALANO, with a wife and one baby, born in October, got along somehow for two years with only a few days' work. Then conditions became very bad. Nothing to eat, and they could not pay the baby's bill.

At two o'clock yesterday morning, the baby's mother, who was found it sucking the nipple of an empty bottle. His wife had crouched in front of him, and he was discouraged. He swallowed a little poison. His wife, however, the bottle out of his hand.

He locked himself into a room and turned on the gas. His wife broke down the door. The baby, held crying, ran to the Governor's Canal bridge, climbed over the railing. Stephen Leonard, policeman, dragged him back. Castalano fought the policeman for half an hour. Also, as the policeman said he had shot and wounded. Both were cut and bleeding when the policeman had beaten him into submission and locked him up. He told the police lieutenant, "Yes, I think I must be crazy."

This bizarre narrative is printed to let you and me know that big corporations are not alone in their financial troubles.

The Pope issued a bull setting aside the twelve months following April 2 as a "holy year of prayer, penance and almsgiving, of Rome and Palestine." Plan XI helps and international peace.

This "extraordinary holy year" marks the 1,000th anniversary of the passion of Jesus Christ. His crucifixion and death for the salvation of men. It is based on the belief that Christ was thirty-three years old the year of the crucifixion. All ages of the world are invited to participate in the year of prayer and penance.

The bull includes "mercifully in the Lord a plenary indulgence for penitents of sins" under certain conditions which include visiting four times each three churches in Rome. In each one praying "according to our intention."

A YOUNG girl in Chippewa Falls, Wis., has been sneezing steadily for a week, except during short periods, when drugs relieved her. Experts from the Mayo hospital treated, cannot understand what ails the girl's physical mechanism.

This riddle was to be granted for your body, so "fearfully and wonderfully made." Ten million times more complicated than any automobile or airplane.

The machine looked up to your skull, made up of billions of cells, and endless billions and trillions.

## Continues As Leader Of U.F.A.

ROBERT GARDINER, M.P.

### MORE ABOUT GARDINER

CONTINUED FROM PAGE ONE

Berkeley, Washington, and Mr. Wood, whom Mr. Gardiner succeeded two years ago.

### PLEADED FOR RELIEF

Mr. Gardiner pleaded for relief from duties as president but declared his willingness to continue if the convention desired. Conviction of his health, he said, would necessitate him taking a period of rest but he would return to active duty at the helm of the organization as soon as possible. Numerous duties of parliament and the presidency were too much for one man, he believed.

At this juncture Mr. Gardiner assured the retiring president many men in the organization would willingly assist him in carrying on the U.F.A. duties. Under this assurance, Mr. Gardiner said he would willingly continue. One by one the other members withdrew.

### COLUMBIA, S.C., Jan. 18.—A daughter was born today to Mr. Beatrice Pennington Seligman, whose husband is in the state senate. A York County officer was committed last week by Governor Blackwood, to life imprisonment.

## U. S. BLAMED FOR OTTAWA'S BRITON PARLEY

### House Solon Looks For Reprials in "Buy American"

WASHINGTON, Jan. 18.—The Wilson bill passed by the United States house of representatives and now in the senate directing the government to purchase American products wherever possible is seen by Representative Celler, New York Democrat, as encouraging reprisals from foreign countries including Canada.

"The United States," he said, "are a great deal to blame for the Ottawa conference. Years ago we had a reciprocity treaty with Canada and a trade between the two countries was vigorous. Then there came a time when internationalism dominated Canada and our own nation and the treaty was abrogated."

Since that time tariff walls have been built higher and higher. The blame is on both sides. We are not blameless. Canada is also culpable. Just as we put the Hawley-Smoot tariff bill they passed the protective tariff on many of our products.

"Our trade with Canada is languishing. We must tell the world that we want the world's goods. If we insist upon payments of duties in hander than their (foreign countries) pay us if we will not trade with them."

### CLASH IN STRIKE

PRAGUE, Czechoslovakia, Jan. 18.—A labor strike, called today in protest against a new law which would permit the use of military trucks, resulted in clashes between demonstrators and police in which the police used water and black-jacks. Numerous demonstrators were wounded or arrested.

### MORATORIUM PROPOSAL

WASHINGTON, Jan. 18.—A two-year moratorium for the United States farmers hard pressed on interest and taxes was urged today by Representative Ayres, Kansas Democrat, in a statement asserting a bill he has introduced would accomplish the purpose.

## Pastor, Maker Of Organ, Dedicates Own Instrument

### Success of 35 Years Efforts

LONDON, Ont., Jan. 18.—Rev. A. Marie Waghom made true this week when on Sunday he presided over services at his Mandamin, Ont. church and dedicated a pipe organ of his own design. For 35 years the middle-aged pastor has worked on a radically new principle in church organ manufacture and his efforts have at last been crowned with success.

The little church at Mandamin, ten miles east of Sarnia, was filled to the doors to hear the pastor's new organ and to witness the service of dedication Sunday.

The long-awaited event was the more gratifying to the pastor as his daughter, Miss Edith Waghom, music instructor in Sandwich school, played the new instrument he had designed and made.

"Music and organ making always have been my hobby," Mr. Waghom said today. "I have spent 35 years of my life in this new instrument."

The pastor described this invention as a "direct electric action, type organ" in principle from the electro-pneumatic type in common use, "quicker and simpler, less liable to get out of order."

Below the Great Wall in this territory lie great British coal and railway interests, and any military movement into the sector almost certainly would involve Tientsin, the only important port in North China.

### COUNTERFEITER GUILTY

THREE RIVERS, Que., Jan. 18.—Charles Blackburn, of Alnashua, Que., charged with having been in possession of counterfeited money and of plates to print banknotes, pleaded guilty to both charges before Magistrate LaCombe on Tuesday. He was sentenced to two years on each count, sentences to run concurrently.

## LONDON POLICE BAFFLED WHEN PRISONER DIES

### Murder Case Comes to End When Furnace Takes Poison

LONDON, Jan. 18.—Efforts of physicians and nurses to save the life of Samuel James Furnace, 36, ended today when he died in a prison cell after he had been captured in his London hideaway—a south-end boarding house where he had spent most of his time reading detective stories.

Spelthorpe was the victim of what police said was almost the "perfect murder." January 3 a burned body was found in the charred ruins of Furnace's workshop and office. At first it was believed the dead man was Furnace. An inquest led to the discovery of bullet wounds and subsequently the police established that the dead man was Spelthorpe. Thereupon they began their finally successful search for Furnace, who had disappeared.

Washington, Jan. 18.—Representative McFadden (R., Pa.) took the house floor Tuesday and again moved to impeach Herbert Hoover, president of the United States.

### Military News

Battery ordered by Capt. F. A. Pratt, O. C. 61st Field Battery, to be sent to the front line. The battery will be sent to the front line on Thursday, January 18, at 10 o'clock sharp. Dress: full uniform. Battery on duty and signalling—Lt. C. J. Thibault, for O. C. 61st Field Battery, C.A.

### Noted Astronomer Instantly Killed

FAIRBANKS, Va., Jan. 18.—Dr. C. M. Fairbanks, noted astronomer, was instantly killed, near here Tuesday when struck by an automobile while he was walking along the road.

He was a brother of the late Melville E. Stone, who was for more than a quarter of a century general manager of the Associated Press.

A number of the Indians living on the Cachevalva reserve, south of Montreal, are experts in steel erection work.

# It's this Canadian's next Number One car?

## It's the New Plymouth

... a SIX at \$95 less than last year!

RECENTLY... Walter P. Chrysler announced the new Plymouth Six. Already... wherever you go... in hotels, clubs, on trains and in theatre lobbies... you hear people say:

"The new Plymouth Six is a coming best-seller."

"It's bound to be Canada's next Number One Car."

Clearly, Walter P. Chrysler and his engineers knew what people wanted. They knew the combination of a six-cylinder engine with Floating Power was unbeatable.

They knew that Canadians hate to be squeezed in... so they made the new Plymouth Six a big, full-sized car.

They understood human nature. We all want a car that travels fast... that's thrilling to drive. They made it safer than other low-priced cars... by giving it a safety-steady body... hydraulic brakes... a rigid-X frame... and a safety-glass windshield.

They built it to set new economy records... in gas, oil, tires and upkeep. And, last but not least, they gave people a low-priced car without that "low-priced look."

No wonder Walter P. Chrysler invites you to drive this much talked-about automobile! No wonder he wants your answer to the intriguing question: "Will this be Canada's next Number One Car?"

### IT'S A SIX AT \$95 LESS THAN LAST YEAR

Business Coupe \$675... Rumble Seat Coupe \$730... Four-Door Sedan \$750... Convertible Coupe \$790... All prices F.O.B. factory, Windsor, Ont. freight and taxes extra. Low delivered prices. Convenient payments. Duplex safety glass in windshield. May be had in all windows at night entry coat. Automatic Clutch at slight extra cost.

## GIRL SHOULD CALL BLUFF

DEAR MISS DIX—A fine young man, 22 years old, at last found the right girl, who has been engaged and then broke the engagement because his mother is violently opposed to his marrying, not this girl, but any girl. Both the girl and the young man are well educated. What can be done? What do you think of him? Of his mother?

Answer: The thing to be done is to say no to the mother, but let her take the girl by the hand and step around to the person and get married forthwith.

Of course there will be a pretty scene. The mother will rage and have hysterics. She will accuse her son of ingratitude and tell him how much she had done for him and that he has rewarded her by breaking her heart and so on and so forth. Probably she will tell him that he has killed her and that she is going to die. But the worst, in a little while the storm will blow over. She will dry her eyes and accept the situation, since she cannot change it, and by the time there are grandchildren she will be thinking she made the match.

Dorothy Dix. There is really no other deplorable figure in the world than the woman who is so utterly selfish that she is willing to ruin her children. It is in her to gratify her morbid mother passion. Her love for her children is not a beautiful, wholesome, natural affection. It is a neurotic emotion, something dark and sinister, that clings instead of blessing.

## What's What

By HELEN DUCHE

Question: Is a rehearsal necessary before a wedding? What entertainment, if any, is given to the participants who take the trouble to be at the rehearsal?

Answer—Some clergymen insist upon a rehearsal for even an informal wedding, in order to put the principals at their ease during the real ceremony. Rehearsals for a formal wedding usually is conducted in the church on the day or evening before the wedding date. The bride-come, with her mother, waits in the church on the day or evening before the wedding date. The bride-come, with her mother, waits in the church on the day or evening before the wedding date.

Another girl takes the bride's place beside the father and the groom during the pre-ceremonial ceremony and reception. The actual words of the marriage rite are not pronounced by the clergyman; otherwise the substitute bride would be legally wedded to the groom. A leaflet covering details of pre-ceremonial, receptional, etc., will be mailed to any reader on receipt of a stamped self-addressed envelope. When a rehearsal is held in the afternoon or in the evening, it is customary to entertain all present at a hotel, restaurant or club dinner or late supper.

Question—I expect to have the Ladies' Auxiliary at my home some evening next week. After the meeting, according to custom of auxiliary societies, I am to serve refreshments. Will it be all right to have fruit cake, orange pie, crackers and cheese, candy, nuts and coffee? What variety of cheese would you suggest? D. M. J. Answer—The refreshments suggested are ample. Try pineapple cream cheese.

During the crop year 1929-30 the quantity of Canadian grain exported via Canadian seaports was 58,887 per cent. This included Canadian grain reexported from the United States. In 1930-1 the amount was 45,77 per cent and in 1931-2 it had increased to 77.66 per cent.

## What New York Is Wearing

By HELEN WILLIAMS

Isn't it adorable? It's up-to-the-minute without being extreme, the modulated type that modern youth and women like so well for every-day occasions.

It is carried out in rustic green woolens with toning green laid woolens.

The low line is in matching rough crepe silk. The blouse is a button-down favourit of the lightest green.

It's made in a perfectly feminine by its sleeves that give a comfortable flare with slight front emphasis.

The circular skirt is cut with a wrapped skirt, giving a comfortable flare with slight front emphasis.

It's fitted to give sleek smooth lines across hips. It's just the simple dress imaginable to fashion. And you'll find its cost exceedingly small.

For the girls of 18 and 19, the dress is made of 2 1/2 yards of 24-inch material with 1 1/2 yards of 24-inch material.

For the girls of 18 and 19, the dress is made of 2 1/2 yards of 24-inch material with 1 1/2 yards of 24-inch material.

For the girls of 18 and 19, the dress is made of 2 1/2 yards of 24-inch material with 1 1/2 yards of 24-inch material.

With the "cold" season upon us, many mothers are wondering if it really matters what the small child suffers from.

As soon as a cold appears in a child, his temperature should be determined. This is usually done by the mother just "hard" his cold is not serious.

When there is a cough, dry foods should be avoided. All the semi-solid foods, such as milk, cream and butter, should be avoided.

Finally, when the cold is broken, the child should be given a light diet. This is usually done by the mother just "hard" his cold is not serious.

When there is a cough, dry foods should be avoided. All the semi-solid foods, such as milk, cream and butter, should be avoided.

# Babe Ruth Returns His New Contract Unsigned To New York Officials

Ross Duke Kates took his Regina home game against Kenney McRint's Capitals tonight and they will be in a fighting frame of mind when they line up to face the Queen City club this evening. That setback on the small Saskatoon rink Monday will certainly have put them in a battling mood and it will be a bitter sort of encounter, says Tim, badly mistaken.

But the Kates Klan will need to be going at their best, for the Regina have been resting on their laurels for about a week and they will be all primed for this game.

A win tonight means possession of second place for either team. The Kats are now sharing the berth with Saskatoon, both of them being one point ahead of Regina, so that a victory will put the Hillsiders in undisputed possession of the runner-up slot next to Calgary, while a win for the Caps will put them in the coveted position.

So maybe they won't be fighting for the verdict this evening.

One of the greatest gridiron stars that has been produced in state in Western Canadian football is at present in Regina and may make his home here. I refer to Babe Ruth, blonde, broad-shouldered, a quarterback, and a player who has been with Regina Roughriders for many years who later became coach of Calgary Tigers and also a grid player on the Pacific coast. Many Edmonton football fans will remember him barking signals to the Riders here, and even later, when he was later in the city as playing coach of Calgary champion Bengals.

Fritz was a bundle of football dynamite when out on the grid, but a feeble player when it came to doing anything well.

Last year the Regina blundered in the playoffs and he earned his usual share of glory.

Efforts are being made to have him stay in Edmonton and, if he decides to do so, we will likely be offered the coaching of the Regina grid squad. If he declines this, he probably will play, too.

If you are a boxing or wrestling fan and would like to see a number of the city's provincial champions in both sports in action tonight on a no-admission program, just look up a friend who happens to be a member of the Y.M.C.A. and get him to take you along. For this evening, Louis Lewis and Mike Lewis will train the boxers and wrestlers at the Y. It is put on for a few hours for members and their friends. It starts at 8:15 p.m.

Louis and Mike tell me they're anxious to have been in the men going through their paces in this public training stint.

## CALDER MIDGETS SCORE TRIUMPH

The Calder Midgets got a step nearer the Hudson's Bay Cup by defeating the Westmont Midgets in the 14th street rink Tuesday night by a score of 3-0. The game was fast and clean all the way. A winning goal came midway in the second period on a nice play by Bruce Cameron.

The first and third periods were very evenly contested. Both goalies during several close calls. For the first time in minutes, the "two hockey" and pulled the goalies out of the game. They could not get the timing goal.

The winners will meet Alverdale in a two game final for the Hudson's Bay Cup and the Community Midgets championship next week. The game will be announced later. The lineup was:

Calder—J. Tulloch, K. Anderson, J. Haddock, D. Green, A. McElroy, Cameron, S. Ross, A. Fiedrich, J. D. Fox.

Westmont—J. Arnold, F. Brown, J. Deacon, B. Nimmon, H. Reed, A. Gibson, B. Elwood, G. Deaton, M. Cameron.

## LACOMBE BOYS BEAT PONKA

Lacombe, Alta., Jan. 18.—Ponka juveniles lost a hotly contested hockey game here to the Lacombe boys in a game held at the Lacombe rink. The game was a close one, with the Lacombe boys winning 3-2. The game was a close one, with the Lacombe boys winning 3-2. The game was a close one, with the Lacombe boys winning 3-2.

**Maple Leafs Lose To Falcon Midgets**

Let by Gifford Ferguson and McDonald the Falcons scored a 2-1 win over the Maple Leafs in a league game played at the 99 street rink. The play was fast throughout and although the Falcons had a slight edge through the playing of the latter they were given stiff opposition by the Leafs. F. Gifford scored the opening counter in the game when he skated in close to Bert Dick at the goal mouth and fired a shot which found its way into the net. Falcon's second goal came in the third period when a shot by Gifford found its way into the net. The Leafs were unable to score in the game.

## WHEAT PRICES EDGE HIGHER AT WINNIPEG

WINNIPEG, Jan. 18.—Burred up a fair export trade and a firmer tone in outside markets, wheat edged back into higher ground in fairly active trade today. Values at the close were unchanged to a higher than yesterday's close.

May closed at 47½, July at 44½ and October at 47½.

Inquiry for Canadian wheat and faro and fair sales were reported from the Pacific Coast. No estimate was obtainable.

Reports from the United Kingdom indicated a slight loosening up of export activity. It was noted that large wheat shipments from the Argentine are expected this week. Considerable movement from Australia is also looked for.

Traders placed little credence in reports from New York and credited to higher activity in the "Money Market" Corporation (Bankers Trust) which has been placed in order with Canada for 20,000,000 bushels of wheat. Rumors based on the floor to this effect had fallen flat and were discounted in official quarters.

The usual dullness was evidenced in cash wheat and coarse grains with spreads holding at unchanged levels.
